

Createisogood English .rar is a free podcast created by the team at createisogood.org, which is where all of their content streams from. It's guest-driven, they don't stop for ads, and they won't allow you to go on autopilot. This podcast is hosted by the proud parents of an 8 year old with learning disabilities in addition to his autism. They claim they are not experts, but they approach this podcast the way new parents would approach an autistic child. This podcast has content on a variety of topics, some of which are new age spirituality, health issues, the new way of life with technology, alternative energy options and other subjects. This podcast can be found on iTunes, Stitcher radio and the website createisogood.org.
